**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID
DEPLOYMENT - MONTHLY STATUS REPORT FOR JULY 2005**

Southern California Edison Company ("SCE") hereby submits a status report describing its activities for the Low-Income Energy Efficiency ("LIEE") and California Alternate Rates for Energy ("CARE") low-income assistance programs for July 2005. This monthly report includes a narrative that highlights the recent activities that SCE has undertaken to implement its low-income assistance programs and to leverage SCE's program with the services provided by Low Income Home Energy Assistance Programs ("LIHEAP") providers.

SCE has worked with the other California utilities, the Energy Division, and the Office of Ratepayer Advocates ("ORA") in developing the format for this report and the accompanying tables. This report includes tables detailing SCE's July 2005 activities, as well as certain summary tables as requested by the Commission. All of these tables comply with the information requested in Ordering Paragraphs 14 and 17 of Decision 01-05-033, issued on May 3, 2001, as well as supplemental information requested by the Commission. The July 2005 tables are also submitted in accordance with the direction received from the Energy Division and the ORA on

a May 22, 2002, conference call with the Joint Utilities in which it was determined that for certain months, the utilities should file an abbreviated set of tables, but on a quarterly basis, the utilities are to file a full set of tables. This month, SCE is filing the full set of tables. As the information in these tables is dynamic, the figures submitted herein supersede results reported in prior months. Also, since SCE has no remaining SBX1 5 funds, SCE has revised many of the tables to eliminate columns that had previously contained SBX1 5 information.

I.

NARRATIVE

A. Description of SCE's Activities for LIIEE

In 2004, SCE strengthened the delivery of comprehensive services to low-income customers by maintaining an informed and experienced group of providers. July 2005 activities have continued that approach and reflect the new eligibility guidelines and eligible measures reflected in D.03-11-020. The following information reflects some of the measures completed and expensed in July 2005. For July 2005, SCE hereby reports on the paid installation of measures including 201 permanent evaporative coolers, 14,565 indoor compact fluorescent light bulbs, and 1,979 energy-efficient refrigerators.

In addition to the service delivery work completed in July 2005, SCE completed 2,283 assessments of customer homes and provided education to 1,028 customers.

1. LIIEE Outreach and Leveraging Efforts

In 2005, SCE continues to permit any LIHEAP agency to leverage funds from the State Department of Community Services for installation of refrigerators provided at no cost by SCE with LIIEE funds. SCE's LIIEE contracts

with LIHEAP agencies include requirements that refrigerators must be installed in SCE customer homes and completed applications must be returned. Other LIHEAP providers are contacted by phone and mail to provide them with information on this leveraging opportunity. SCE and SoCalGas have established a cooperative working relationship over the years. SCE continues to refer all customers receiving electric measures and whose assessment indicates gas space heating and three eligible weatherization measures to SoCalGas.

2. Bulk Purchasing

SCE continues to competitively bid the purchase of energy-efficient refrigerators. By purchasing these appliances in bulk, SCE exercises a level of control over inventory that may not otherwise be possible. Contract terms are usually beneficial to SCE service providers. For example, refrigerators are shipped in small quantities and are warehoused in a number of locations convenient to service providers. Finally, SCE is able to obtain the best price possible through a competitive bid process.

B. Description of SCE's Activities for CARE

Through July, 15,065 customers were enrolled in the CARE program as a result of the March 2005 direct-mail marketing effort.

Moreover in July, SCE partnered in numerous CARE outreach activities that targeted SCE's hard-to-reach customer base in conjunction with SCE's Consumer Affairs Department and Equal Opportunity. SCE also hosted an event with the City of Long Beach Neighborhood Leadership Program in conjunction with the 7th Annual Leadership Conference. The event targeted residents living in Long Beach's most economically challenged and politically isolated neighborhoods. 300 CARE applications were distributed at this event. In addition, SCE hosted an event in conjunction with the Southern California Indian Center at the 37th Annual Pow

Wow. This event targeted the Native American population within SCE's service territory. CARE applications were distributed to many event attendees.

As part of the CARE Capitation Program, 9 agencies/organizations submitted 229 applications in July. Of these, 159 customers were enrolled, 60 were found to be existing CARE enrollees and 10 applications were rejected. A total of \$1,908.00 was paid out as part of the Capitation Program in July 2005.

SCE's multi-lingual efforts produced 256 applications in July with 190 of those applications resulting in new CARE enrollments. SCE continues to share enrollment data with SoCalGas and Southwest Gas.

As of July 31, 2005, a total of 966,567 customers were participating in the CARE program. SCE is working to develop new approaches that will increase customer response to recertification requests, thus reducing the customers that drop-off the CARE rate. Based on SCE's revised estimates of eligible customers as submitted to the Commission in Table 16 of this report, SCE's current enrollment equates to a penetration rate of approximately 84%.

1. Outreach Provided to California Indian Tribes So That Compliance With SBX1 5 Section 5(j) Can Be Monitored

SCE continues to work with the Southern California Indian Center in 2005 to provide important outreach to underserved Native Americans.

2. Discussion of SCE's 2004/2005 CARE Program and Outreach Plans

SCE implemented a far reaching media campaign in 2003 and continued that successful approach in 2004. SCE is continuing this outreach in 2005 since direct mail will always be an important component of SCE's efforts. In October and November 2004, SCE mailed 530,000 CARE direct mail pieces to targeted customers. Over 32,000 customers were enrolled in the CARE Program

through this mailing. SCE continues to track the new CARE enrollments driven by this direct mail campaign. SCE mailed 440,000 CARE direct mail pieces in March 2005 to targeted customers and has processed 18,162 CARE applications. Of the applications processed, 15,065 new customers were enrolled in CARE.

SCE continues to expand grassroots efforts through strategic alliances. SCE also plans to develop additional data systems and enhancements to CARE applications to improve the infrastructure of the system used to process applications and recertification documents.

In addition to implementing the high level marketing campaign and improving the infrastructure of the application processing/recertification/verification process, SCE will fund the cost recovery for Phase II of the Low-Income Needs Assessment. SCE believes increased marketing and communication to multi-lingual customers is consistent with Commission policy and should lead to increased CARE enrollment.

SCE conducted an Ethnic Awareness Survey to assess the effectiveness of its CARE ethnic advertising among residential customers in five ethnic segments: Hispanic, Chinese, Korean, Vietnamese and African American. Key findings show CARE is the most recalled SCE program among ethnic market customers and the majority of ethnic market customers (58%) prefer that information regarding CARE be provided only in their primary language.

3. 2005 Cool Centers

SCE contacted its active existing Cool Center operators to discuss program changes that were directed by the Commission in D.05-04-052. All program operators have declined participation in 2005 due to the new limitations on eligible expense categories for reimbursement and concern over income qualifying Cool Center attendees. Based on the input received to date from the existing active

contractors, SCE will not operate the Cool Center program in 2005, absent revisions to the policy directives outlined in D.05-04-052.

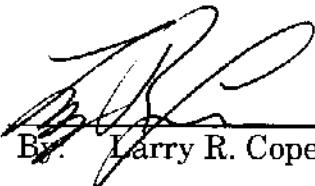

II.

CONCLUSION

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE and CARE programs through the Rapid Deployment effort.

Respectfully submitted,

MICHAEL D. MONTOYA

Source of MWh Savings Estimates - Impact Study of 2001 Statewide LIEE Program prepared by Kema Xenergy. Assumptions by weather zone are presumed to equal 2004 program activity. The Kema-Xenergy Study did not calculate MW demand reduction.

Source of MW Estimate - Estimate is obtained by multiplying MWh by .000217, which represents SCE's average of utility MWh to peak savings as filed in the 2004/5 energy efficiency applications and included in Table 1B of Decision D-04-09-060. This is an estimate of average peak savings not coincident peak.

[1] Includes CARE activities absorbed by non-CARE funding sources.

[2] Includes Regulatory & Compliance and Law.

[3] Includes program management labor, overheads, and information technology support.

[4] Includes only invoices received from the Public Utilities Commission for LIEE reimbursements - 70% allocated to CARE and 30% to other LIEE.

Note: With the implementation of post PROACT rates on August 1, 2003, the 1-cent and 3-cent surcharge exemptions no longer are separate from the CARE discount. CARE customers continue to receive a discount in excess of the mandated 20%, based on post-PROACT rates adopted in D.03-07-029, but the full cost of this discount is now included in rates for recovery from other customers.

* These numbers reflect homes that were weatherized in both SCE's Weatherization Program and the Inter-Utility Cooperative with SoCalGas. The eligibility estimates are based on income eligibility only, not the condition of the dwelling.

**Table A-SCE LIEE Leveraging & Outreach Initiatives
As Of July 2005**

LIHEAP Organizations	<p>In Decision 01-05-033, dated May 3, 2001, the CPUC ordered California IOUs to implement their LIEE programs as a "leveraging vehicle" with Community Based Organizations (CBOs) who deliver similar services through the Low Income Home Energy Assistance Program (LIHEAP), administered by the California State Department of Community Services and Development.</p> <p>In compliance with D01-05-033 and to assist in the installation of refrigerators for PY2004, SCE contracts with seven LIHEAP organizations within SCE's service territory.</p> <p>SCE continues to offer leveraging contracts to <u>all</u> LIHEAP agencies throughout SCE's service territory.</p>	July 2005	<p>12 contractors are currently installing refrigerators for SCE under the regular SCE contract. Of these 12 contractors, 7 are LIHEAP funded.</p> <p>As of July 31, 2005, two hundred thirty (230) refrigerators have been installed through LIHEAP leveraging.</p>
Southern California Gas (SCG) Data Sharing	<p>SCE continues its contracts with service providers in SCG territory to provide comprehensive assessment services to joint customers of SCG and SCE. Customers outreached in SCG service territory who are also SCE customers are assessed for all gas and electric measures they may qualify for.</p>	Ongoing	Ongoing

Table B – SCE CARE Leveraging and Outreach Initiatives – As Of July 2005

Initiative	Summary	Timeline	Status
CARE Enrollment with LIEE Services	Enroll customers in CARE at the time they receive LIEE measures/services.	Ongoing	CARE applications are completed when energy education materials are presented to customers.
SCE/SoCalGas Data Exchange	SCE collaborates with SoCalGas to electronically share CARE participant data to assist customers to enroll in each utility's program.	Ongoing	Ongoing preparations for a one day event / no cost / accomplished through Edison affinity groups, volunteers from VOICE and other Edison volunteers.
Top 100 Home Owners Associations in territory	Sent information packets for distribution in board meetings and publication in newsletters.	March 2001	On going / no cost
